

OASIS has received a very enthusiastic reception throughout the Government and many agencies are already taking steps to use this vehicle for both new contracts and recompetes.

The ZelTech OASIS contract vehicle can assist you in pursuing and winning key Government Contracts.

We are ready to team with you under OASIS SB to provide exemplary service to the Federal government and achieve business goals of mutual benefit to us both.

Knowledge, Tools & Solutions
to ensure US national security

ZELTECH[®]
Zel Technologies, LLC

General Overview

PROVIDING GOVERNMENT CUSTOMERS WITH IMPROVED ACCESS TO TAILORED, INTEGRATED TECHNOLOGY SOLUTIONS

- ZelTech possesses the One Acquisition Solution for Integrated Services (OASIS) Small Business (SB) Indefinite Delivery Indefinite Quantity (IDIQ) contract vehicle that allows Government agencies to order total integrated solutions to meet a multitude of professional service requirements.
- OASIS SB is ideal for meeting Government needs for innovative solutions that cross multiple disciplines, require commercial/non-commercial items, and include ancillary support, also known as Other Direct Costs (ODCs). Contract types: fixed-price, cost reimbursement, time and materials/labor hour, or hybrids.
- The services provided under OASIS SB are intended to meet the mission requirements of all Federal agencies, including all organizations within the National Security and Intelligence Communities.

Program Management Services

All services related to leading, facilitating, and ensuring the strategic planning, implementation, coordination, integration, and evaluation of programmatic activities and administrative systems.

Scientific Services

All services primarily involved in the application of comprehensive scientific and professional knowledge in planning, conducting, evaluating, and managing fundamental research, knowledge enhancement, and/or technology development and innovation.

Management Consulting Services

All services related to the practice of helping organizations to improve their performance, primarily through the analysis of existing organizational problems and development of plans for improvement.

Financial Management Services

Planning, directing, monitoring, organizing, and controlling of the monetary resources of an organization.

ENGINEERING SERVICES

This includes any service or creative work, the adequate performance of which requires education, training and experience in the application of special knowledge in consulting, investigating, evaluating, planning and designing, engineering principles.

LOGISTICS SERVICES

This includes management of the flow of resources, not only goods, between the point of origin and the point of destination in order to meet the requirements of organizations. Logistics services involve the integration of information, transportation, inventory, warehousing, material handling, packaging, security, and any other function necessary to the flow of resources.
