# TERRAFORMERS

SPACE • ADVENTURE • ROBOCAMP

*Triple Helix*, the Menchville High School Robotics Team is pleased to announce RoboCamp 2010!!

The camp, designed for rising 5th through 8th graders, will permit students to explore the use of robots for future Deep Space Terraforming missions, where a planet in a remote star system may be transformed to support human habitation. Students will learn fundamental robot design and programming techniques as they build robots to complete a number of unique missions as efficiently as possible. The camp will culminate in a fun and friendly competition amongst the campers to identify the Interstellar Champion of Robotics!

DATE: June 28, 2010 through July 1, 2010  
TIME: 9:00am to 5:00pm  
WHERE: Menchville High School  
WHO: Rising 5th through 8th graders  
TUITION: \$200.00 before June 14th  
\$250.00 after June 14th  
Lunch, snacks, and all supplies included

For additional information or for registration materials, please visit [www.MenchvilleRobotics.org/RoboCamp.html](http://www.MenchvilleRobotics.org/RoboCamp.html) or send an e-mail to [RoboCamp@MenchvilleRobotics.org](mailto:RoboCamp@MenchvilleRobotics.org).
